

Statement of Work

Second Mountain Internal Medicine, P.C. — Web Optimization & Architecture

Prepared by: **Justin Harvey**

Date: **July 7, 2026**

Prepared for: **Dr. John C. Matulis, DO, MPH**

Project Rate: **Friends & Family — \$400.00 flat**

Phase 1 — Aesthetic Redesign & Global Style Engine

Migration from generic healthcare styling to a targeted "Warm Maine Editorial" design system tailored to the practice's voice, geography, and patient audience.

Deliverable	Description	Est. Hours	Billable Hrs
Global Theme & CSS Tokens	Configured new design tokens site-wide: Primary Slate Lake Blue (#2d5a7b), Secondary Sage Forest Green (#5c7a67), Warm Cream backgrounds (#f0ece4, #faf9f6), and Warm Dark text (#1a1612), replacing generic cool-gray/electric-blue palette	3.0	0.5
	Standardized border radius to a tighter, clinical 3–12px spectrum across all UI containers; audited global typography tracking and line heights for readability on older devices and rural mobile connections	2.5	0.5

Phase 1 Subtotal: 5.5 est. hours / 1.0 billable hours

Phase 2 — SEO, Analytics & Structured Data Engine

Deploying enterprise-grade metadata, behavioral analytics, and localized search signal architecture consistent with healthcare best practices.

Deliverable	Description	Est. Hours	Billable Hrs
Google Analytics 4	Provisioned and deployed GA4 property (G-EKMLD6KN39) globally across all active pages for behavioral tracking and conversion monitoring	1.0	0.25
Schema.org @graph Structured Data	Scripted and injected a full JSON-LD @graph schema on every page mapping interrelated medical entities: MedicalBusiness, MedicalClinic, LocalBusiness, and Physician — including NPI, geo-coordinates, operating hours, and verified sameAs authority links to Google Maps and Healthgrades	5.0	0.75
Canonical & Open Graph Metadata	Configured self-referencing canonical URLs on every unique route; built individual Open Graph tags (title, description, image, URL) per page for accurate social sharing previews	2.5	0.5
On-Page & Keyword Optimization	Authored unique, keyword-rich title and meta description strings per page targeting local geography (Oxford Hills, Lewiston, Auburn, Turner) and condition-specific terms (dementia, Alzheimer's, COPD, CHF, Parkinson's)	4.0	0.5

Phase 2 Subtotal: 12.5 est. hours / 2.0 billable hours

Phase 3 — Multi-Page Routing Architecture

Restructuring the original single-page site into a scalable multi-page environment with SEO-optimized routes, proper internal linking, and purpose-built layouts per audience.

Deliverable	Description	Est. Hours	Billable Hrs
Core Profile Pages	Standalone bio layout for Dr. Matulis and a	4.0	0.5

Deliverable	Description	Est. Hours	Billable Hrs
(about, services)	granular multi-tier services directory with condition/service groupings, each as a distinct route		
Content Pages (faq, contact)	Dedicated FAQ page with full SEO metadata and a secure contact form interface	3.0	0.25
B2B Referral Engine (referrals)	Net-new page architected specifically for outside clinic and provider referral pipelines — not present in the original site	3.0	0.5
Compliance & Territory Pages	Geo-targeted service territory page (service-area) and HIPAA-aware privacy policy — both legally required before accepting patient inquiries	2.0	0.25
Homepage & Navigation (index)	Updated homepage header, footer, and contextual links to connect across all newly provisioned pages; navigation updated site-wide	2.0	0.25

Phase 3 Subtotal: 14.0 est. hours / 1.75 billable hours

Financial Summary

Total Estimated Commercial Effort	32 hours
Standard Market Value	\$3,200 – \$4,000
Friends & Family Billable Hours	4.75 hours
Effective Rate	\$84.21 / hour
Total Invoice Amount	\$400.00
